EIGHTY-TWO BODIES REMOVED FROM MINE IN ALABAMA WHERE DUST EXPLODED

All Who Were In Mine
Now Accounted For;
Many of Those Rescued
Will Probably Die.

400 MEN ENTOMBED

Birmingham, Alabama, Nov. 23.—Up to noon today eighty-two bodies have been brought to the surface in the second greatest catastrophe this state has ever known. Yesterday afternoon while over four hundred men were working in the Delemit mine a dust explosion occurred which entombed all workers and threatened to smother the lives of all of them. It is expected that the death toll will mount to at least one hundred as several of the seventy-five or more men burned or injured are in critical condition. The rest of the men have been found, huddling in corners of safety, and for the most part unharmed, except for shock and weakness from bad air.

Miners who were called to hold back screaming women and relatives of the entombed men pending their rescue, were still silently packing back and forth in front of the operation to keep the crowds of the curious away from the mine. The work of rescue is being pushed forward as fast as possible. It is believed to have been responsible for fifty deaths. Half of the men were of the white race.

As the work of rescue progressed reports brought to the surface grew less hopeful. One squad reported bodies strewn all along the main passage.

As darkness came women and children, white and black, crowded closer about the mine, anxiously waiting word from the rescuers.

The American Red Cross sent a company of nurses and assistants to the mine of the disaster.

Yesterday, mostly white, were seen under the wreckage of the mine, which plunged at once upon them when they broke loose from their mooring on the tipple, 1,000 feet above. Rescue crews found mangled bodies and a score of injured men.

M. P.'s

AGED WOMAN TELLS GRAND JURY WHAT SHE SAW NIGHT OF COUPLE'S MURDER

Sommerville, N. J., Nov. 23.—An additional feature of interest was projected into the Hall-Mills investigation before the Grand Jury today when it became known that a Mrs. Vorhees, a grey haired elderly woman who lives near the scene of the murder had given testimony which heretofore had been kept a secret. Mrs. Vorhees says she witnessed the arrival of the two automobiles, heard the arguments and saw the cars depart after two shots had been fired. She said she was attracted to the window of her home, which is about two hundred feet from the rustic lane leading to the murder scene "by a commotion outside" and saw two automobiles stop. She also saw a number of people, just how many or what they looked like she could not say. They engaged in an argument which grew loud enough that she heard someone say "What are you doing here?" and "What do you mean?" She then heard two shots after which the two machines sneaked away toward New Brunswick.

The Grand Jury will adjourn today and will not sit again until Monday.

KELLER IS ASKED TO PRODUCE EVIDENCE AGAINST DAUGHTERY

Washington, D. C., Nov. 23.—The House Judiciary Committee today served notice on Representative Keller that he must submit fuller and more complete evidence on the charges preferred against Attorney General Daugherty by December 1. The Committee will hear the charges on December 4th.

BARON SONNINO, OF "BIG FOUR" FAME, SUFFERS A STROKE

Rome, Nov. 23.—Baron Sonnino, Italian member of the "Big Four" of war time suffered an apoplectic stroke of the brain here today and is in a serious condition.

SEND THESE CHILDREN HOME!

We have heard a great deal of comment from time to time concerning the Chest Creek country its customs and its officers of the law, but it remained for "Squire Westover of Westover to cap the climax when on Tuesday last he issued commitments for and sent to Clearfield under heavy guard, two desperados or alleged desperados, charged with the more or less obsolete crime of horse stealing. When Sheriff Tom Lowell was advised that two horse thieves were enroute to the county jail, he at once got out his ball and chain, "Oregon boot" and all the other mechanical devices used in the dim and misty past to aid in the detention of desperate criminals.

When the Chest Creek Constable arrived with the horse stealers in charge the Sheriff had several heavily armed deputies located at vantage points about the jail entrance to provide against any possible attempt to escape on the part of the desperate characters he expected to receive.

When a long, lean, lanky Constable

hopped up the steps with a couple of kids at his heels, Tom halted the newcomers and told them they could not visit the jail at that time as the "deck had been cleared for action" and the reception committee was ready to receive a couple of Chest Creek horse thieves and "bad men."

Proudly rattling his home made tin badge of authority, which was as big around as the bottom of a three gallon lard can, the man with the boys in tow replied "Well, I swan; I be the Constable from Westover, and these here fellows are the horse thieves, by heck, and here's 'Squire Westover's commitment to prove it, by gum."

The Constable was right too and the Sheriff then learned that the two kids were the desperados he was led to believe were to be placed in his care and keeping.

The little lads were William and Melville Lee, aged 9 and 8 years respectively, and they had been committed to the county jail by the Justice of the Peace charged with horse stealing.

Wouldn't that jar you in this age of supposed enlightenment and common sense.

The "desperados" appeared to be satisfied they were "bad men" but instead of being placed in the jail were taken by the kind-hearted Sheriff and his good wife, with kids of their own, to the nursery or juvenile department, where they are being looked after.

The prisoners entered pleas of guilty to the crime with which they were charged and here is their story: Their father is working or living in a town a few miles from Westover and desiring to visit him and having no other means of travel the kids annexed a convenient horse and buggy without saying by your leave to the owner and the legal machinery of the law was invoked and the strong arm of the law of the Commonwealth of Pennsylvania reached out and grabbed these youngsters, just out of the cradle, and they were promptly branded as felons by the Justice in question and sent down to a prison cell.

AUTOISTS CRY OUT "I'M CURED" WHEN FORCED TO ATTEND FUNERAL OF AUTO VICTIM BY COURT ORDER

Cleveland, Nov. 23.—Seven-year-old Catherine Gilmore was buried yesterday afternoon, and at her funeral were five motorists, convicted of violating traffic laws. They were serving a sentence imposed on them by Traffic Judge Sawicki.

They heard the Rev. W. P. Haggerty deliver a sermon upon "Thou Shalt Not Kill."

On pronouncing sentence, Judge Sawicki said: "You are guilty of violating traffic laws. You are ordered by this court to attend the funeral of Catherine Gilmore, seven years old. She was

killed by a motor car. I am not passing this sentence because you are guilty of any infraction of the law other than that with which you are charged.

"I am acting because I feel I must bring home to you the seriousness of careless driving. If by any action one child's life is saved, it is worth while."

The Rev. Haggerty said: "My friends, are we not forgetting the laws of God? The Fifth Commandment says, 'Thou Shalt Not Kill' and no modern invention gives

(Continued On Page Two.)

HOME BREW CLAIMS VICTIM AT ERITON; MOONSHINE DID IT

DuBois, Nov. 23.—John Pernovac, aged 40 years, died sometime Tuesday night at the home of his friend, Costica Staskibic, of Mapledale, near Eriton, from drinking home brew.

Staskibic is the father of three small children and had left them in the care of his friend, Pernovac while he went hunting. The mother of the children is in the asylum for the insane at North Warren, Pa. When Staskibic returned to his home Tuesday night he found his friend in a drunken stupor from which he could not be aroused. Staskibic, thinking Pernovac would be alright after sleeping all night, left him and went to bed. About three o'clock in the morning he awakened and went to Pernovac to see how he was and found he had died some time during the night.

Coroner J. I. Pollum investigated the case and found death was due to an overdose of moonshine.

BONAR LAW HOPES FOR U. S. HELP ON LEAGUE PROBLEMS

London, England, Nov. 23.—British hope for American participation in old world affairs was expressed by Premier A. Bonar Law today in a statement in which he referred to America as the "most idealistic nation."

"I trust that the time will come when America will come to the assistance of the League of Nations. By such action the value of the league would be materially increased."

REFUSE CHILDREN

HABEAS CORPUS

Dublin, Ireland, Nov. 23.—A habeas corpus application in the case of Erskine Childer, De Valera's chief lieutenant, was refused today.

Whose?

Here is little "John Doe," about two and a half years old, who was found in New York after a fortnight's trip from Shreveport, La. The Pittsburgh porter stated that a woman had asked him to bring the child to New York where he would be claimed. The child cannot speak his name and no clue to his identity has been discovered.

DUBOIS HAS STRONG AGGREGATION FOR GAME SATURDAY

Visiting Team Will Be
Here With Stars, Both
Speed and Weight, and
Great Game Is Certain.

LOCALS CONFIDENT

By DICK LEIPOLD
Coach Eddie Treadwell, DuBois' grid mentor, will bring one of the strongest teams developed at the county metropolis in recent years to battle the local school Saturday. The Black and White machine is fortunate in having unusually experienced men at important positions this fall, especially on the offensive play. Treadwell's pupils are apt. Captain Burns, playing his fourth varsity year, is reported to be a terror on line plunging, and also is a strong defensive back. Bill Nofaker, 200-pound battering ram, has been playing full and acting as a regular harvester when it comes to taking out men on end runs. Cliff Johnson, fleet halfback, does all the kicking from scrimmage and has quite a reputation as a placement goal booter. Johnson's 50-yard dash with an intercepted pass enabled DuBois to defeat Curwensville High 14 to 7. "Chuck" Kline, 168-pound quarterback, runs the team as his three years of varsity experience warrant. Kline's middle name is versatility, as he is adept in catching passes, running the ball and passing. This quartet (Continued On Page Two.)

SIX BANDITS VISIT MISSOURI TOWN AND ROB BANKING HOUSE

Gallatin, Missouri, Nov. 23.—The mayor, the town marshal and a hotel keeper were wounded here at four o'clock this morning when bandits made an attack on the bank, captured and overpowered the marshal, blew up the bank and got away with over four thousand dollars in cash.

The bandits, believed to have been six in number, and from the underworld of Kansas City, swooped down on the city about 4 o'clock this morning and after gaining access to the bank, placed two heavy charges of explosives at the vault door. The two charges exploded the entire town and neighborhood, cracked the safe to bits like a paper box, scattered furniture and fixtures to the four winds and made the office partitions into kindling wood. The bandits escaped.

SENATE DEMOCRATS CHOOSE SIMMONS FLOOR LEADER

Washington, D. C., Nov. 23.—Senate Democrats in caucus today virtually chose Senator Simmons of North Carolina as their leader to succeed Senator Underwood of Alabama.

MARRIED AT CUMBERLAND
Clifford L. Ogden, of Millboro, and Rena May, daughter of Grandpa, were a Clearfield county couple to get a marriage license at Cumberland Md. Wednesday.

A Modest Hero

Robert J. Kneiser, 24, has formed no feat of extraordinary gallantry. His courage was shown in a simple way. This is his story: Without outside aid, this 15-year-old boy spent 43 days patrolling the town-room house of his parents in Kearney, N. J. He thereby saved his parents \$150.

HIGHWAY COMMISSIONER BILES URGES SPEED PROHIBITION FOR AUTOISTS TO CUT DOWN TERRIBLE DEATH RATE

Harrisburg, Pa., Nov. 23.—Speed prohibition comparable to liquid prohibition may be imposed upon the automobile world by an outraged public, unless something is done to curb America's speed mania, George H. Biles, highway commissioner of Pennsylvania, declared today.

It is conceivable, Biles pointed out by the mounting thousands killed by automobiles, may bring about legislation imposing such drastic regulations upon automobile use as to harass the industry virtually out of existence unless the speed death problem is solved.

"Over 855 people have been killed by automobiles in Pennsylvania this far this year. The material speed and wanton disregard of the safety and rights of others practiced by some automobile drivers constitute a problem that must be solved immediately. "With the number of motor cars increasing until the country is literally swarming with them the whole question is one that demands a sense of proportion. We must not let this mechanical thing become a kind of Frankenstein to destroy its creators. "I should recommend above all else a strict enforcement of existing speed regulations. Moderation must be forced upon these ungovernable senseless to protect their own lives. "To motor manufacturers and dealers must accept some sense of responsibility for the situation and work from within the industry to keep owners and drivers within the bounds of reason.

Most Powerful Warships For The British Navy

In Spite of Disarmament Agreements,
England to Build Fighting Monsters

Washington, Nov. 23. (U. P.)—Great Britain's navy will have the largest and most powerful warships afloat when the two new battleships which are to be laid down in January are completed.

Not even the two new super-dreadnoughts now to be added to the American navy can equal them in size, speed and armament, in the opinion of naval experts here based on press descriptions of the new ships.

These ships will also believe the admirals of the British navy will give it a considerable edge over the United States even in respect to tonnage, the basis on which the 15,000 ratio of naval strength for England, the United States and Japan was figured in the naval treaty.

The original agreement would have prevented the building of the Colorado and the West Virginia, the two battleships now to be completed, and which Japan's in-creased armament is threatening the Mutu, one of her ships, forced a compromise. As a result England was permitted to build two battleships not to exceed 15,000 tons each.

In view of the national demand for economy in England and the fact that with her excess of powerful cruisers and other auxiliary craft, it was generally believed here that Great Britain would not take advantage at this time of her right under the treaty to build the new capital ships.

Cause Surprise.

Press reports therefore that contracts had been let for the two vessels and they would be laid down in January caused considerable surprise.

Construction experts here point out that with no limit of cost, so that the finest steel and other material, as well as workmanship, can be used, 35,000-ton limit will impose little handicap on the constructors. The cost of each, according to the specifications, is to be \$40,000,000. This of course gives British contractors much more leeway than the same figure would here, both labor and material being much cheaper.

Except for the battle cruiser Hood, headliner of the Royal Navy, with her 41,200 tons, the two new fighting ships.

(Continued On Page Two.)

CLEMENCEAU UNDER FIRE IN CONGRESS; INVADES NEW FIELDS

Washington, D. C., Nov. 23.—With United States Senators denouncing his utterances from the floor and a storm breaking in the House Georges Clemenceau today left New York to invade New England. Newspaper men were the "seeing" committee, the city or state taking no notice of the departure of the distinguished visitor.

Clemenceau was attacked on the floor of the Senate by Senator Hitchcock, former chairman of the Committee on Foreign Relations. He declared that if France had to send an envoy to the United States she could have sent one better fitted than Clemenceau, whose utterances from the platform had been nothing but criticisms of this country's attitude toward Europe since the ending of the war.

ODDS AND ENDS AND THINGS

By J. D. C.

It costs the people of Pennsylvania more than \$47,000,000 annually to care for dependents, delinquents and defectives. She divided this amount as follows: Tuberculosis, \$1,495,647; workmen's compensation and poor boards \$12,388,714; hospitals, including those owned or aided by the state, \$8,564,861; constructive work for children, \$7,177,040; and care of the inmates in asylums, jails, adult homes and penitentiaries, \$17,243,995.

T. Henry Walnut, Philadelphia attorney, in talking to the women's Voters League last week made the following comment on prohibition and the way it was received by the average Pennsylvanian:

"Unless the evils of prohibition are corrected, prohibition will corrupt the entire government," declared Mr. Walnut. "Until prohibition arrived the Federal service was the square and most upright in the world. The arrival of prohibition brought a completely new conception of what the Federal service could be. A few years ago any talk of corruption was a once traced to its source. In 1900 stories of graft, fraud and corruption in the Federal service, affecting almost every one in the service, were common. They seemed to be taken as a matter of course and little attention was paid to them."

Mr. Walnut said the only difference prohibition had brought about in Philadelphia was to decrease the number of saloons and bring into being a great crop of bootleggers. "The difficulty is that the average man does not appreciate that there is nothing wrong in buying a drink," he said stating that as long as people are willing to buy liquor some one would sell it.

The LeBrasca born without arms or legs at Chicago will not be scientifically killed.

Mother love decrees that she shall live.

"This is my cross to bear," the baby 10-year-old mother, Mrs. James C. LeBrasca, said today when told for the first time that her baby was physically deficient.

Scientists, surgeons and sociologists had been discussing in the public press in matter of fact, analytical phrase the question: Would not the baby be better off dead? Would not be more humane to scientific the disease of the child? Had not the Harry J. Hail's confusion come ago to perform an operation in the famous Baby Bollinger case that would have saved that baby's life because he knew the baby would become a homeless imbecile?

But—Baby LeBrasca's case is going to be different. The theories of science are often like grain before the scythe, through the dictum of mother love. Mrs. LeBrasca will bear her cross.

"Maybe," the frail little mother said to Dr. S. T. Bolstead, the attending physician, "maybe God will be good to her."

And the father, James C. LeBrasca, a medical student, who had at first regarded the bone, according to Dr. Bolstead, that "Providence would be kind and take the baby," echoed with tears in his eyes, the mother's fervent prayer.

If Back Hurts Flush Kidneys

Eat less meat, also take glass of Salts before breakfast occasionally.

Too much meat may form uric acid which excites the kidneys; they become overworked; get sluggish, ache and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region; you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Drink lots of water; also get from any pharmacist four ounces of Jad salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to help neutralize the acids in urine, so it is no longer a source of irritation, thus often ending bladder weakness. Jad Salts is inexpensive, can not injure, makes a delightful effervescent lithia water drink which everyone should take now and then to help keep the kidneys clean and active. Drug stores here say they sell lots of Jad Salts to folks who believe in correcting kidney trouble while it is only trouble.

vent prayer. "I want my baby to live," he said. "I do want her to live."

Dr. Bolstead never for a moment thought of scientifically doing away with the baby. "Our business," he said, "is to preserve life, not destroy it."

Fifty thousand dollars for a single strawberry plant was paid by Frank E. Beatty, president of a firm of fruit growers at Three Rivers, Mich. 11/23/22 ch

The plant is to be known as "Rockhill," in honor of its breeder, Harlow Rockhill, of Conrad, Ia. The price is believed to be the highest ever paid for a single strawberry plant. The plant bears in early summer and has a good production in the late summer, bearing until frost comes.

Mr. Beatty says he will risk his reputation as a strawberry expert that it will revolutionize strawberry growing. He says it produces delicious fruit in spring, and from late summer until a frost. The reasons he gives for his record price for the exclusive right to propagate the berry are:

"First—It produces more berries—bigger berries and berries of higher quality in the early summer than any of the most popular early summer varieties."

"Second—During the fall months Rockhill plants are continually loaded with big, bright, red berries, green berries and blossoms, and it continues this heavy fruiting until snow."

"Third—Both spring and fall berries have firm texture making it a splendid shiner and good keeper."

"Fourth—No variety now in existence will equal Rockhill in either productivity or quality of berries. Extremely hardy, it will succeed in coldest weather."

"The Rockhill was originated by Harlow Rockhill, of Iowa in 1918. It never has failed to produce a big crop both summer and fall. All strawberry experts who have seen the Rockhill fruiting agree with me it is the greatest strawberry under the sun. The plants root deeply, grow luxuriantly. A single hill is almost as large as a bushel basket. The great vitality and vigor of the plants enable them to produce abundantly perfectly healthy berries. It has enough leaf surface to be not affected by any plant disease."

Try Our New Department

HER AILMENTS ALL GONE NOW

Mrs. Sherman Hedged by Lydia E. Pinkham's Vegetable Compound

Lake, Michigan. "About one year ago I suffered with irregularities and a very nervous condition and at times was obliged to stay off my feet. I decided to try Lydia E. Pinkham's Vegetable Compound and finally said I could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and I am entirely cured of my ailment. I can now publish this letter if you wish."—Mrs. MARY SHERMAN, Rock Lake, Mich.

There is one fact women should consider and that is this. Women suffer from irregularities and various forms of weakness as different medicines. Finally I like Lydia E. Pinkham's Compound and Mrs. Sherman's experience is another case showing the merit of this well-known medicine.

If your family physician fails to be of use and the same old troubles persist why isn't it reasonable to try Lydia Pinkham's Vegetable Compound?

Insure Your Radiator

These are the times when you may run up against a sudden drop in temperature and you don't want the annoyance and expense of buying a new radiator.

Put the amount we specify of our RADIATOR ALCOHOL in your radiator and you'll be assured of radiator insurance during the coldest of weather.

Buying your alcohol here also gives you our radiator service—we will watch the radiator for you and see that your proportions are right to prevent freezing.

The ideals of democratic government and democratic education were planted simultaneously in our country. Ever since they have gone hand in hand and each has always been a supplement to the other. It has been a cardinal principle in the United States that everyone should have the opportunity of receiving an education. President Harding rightly stresses these facts in proclaiming the week of December 3rd to 9th as American Education Week.

Opportunity, indeed, is not lacking, but unfortunately it is not always availed of. The revelations to that effect brought forth recently when the draft system came to be applied proved, it is no exaggeration to say, a real shock to the nation. It was those revelations more than anything else that made the focusing of attention on the subject by some such extraordinary method as the holding of a special education week a necessity. Therefore in making his proclamation the President has shown that he is alert to the needs of the age and to the many benefits likely to accrue to the country from a more intensely developed attention to the universal spread of education.

The President regrets, and with reason, that so few young men and women, properly equipped for such service, are nowadays disposed to take up teaching as a profession. The situation in this respect of late years has in truth been such as to reduce school boards almost to despair. Good teachers and plenty of them are essential to every system of education. One result of Education Week ought therefore to be a determination in all parts of the country to offer such inducements in the way of pay and pension as will draw young people of the right caliber into the teaching profession.

The tendency of the male teacher to disappear rapidly from the ranks has been one of the hardest blows to education in the United States. Education Week will have served a useful function if it succeeds in restoring the balance as between the sexes.

Those who have strong party affiliations are often with difficulty reconciled in case of defeat. To them it seems as if the whole country, and perhaps the world, has been allowed to fall into the hands of machines that will bring about destruction. In any event, the only hope held out is often dated some years away at another election.

"The habit of looking on the best side of every event is worth more than a thousand pounds a year," said Dr. Samuel Johnson. Nowhere does this truth apply more aptly than to the disappointments incident to political machinations. There is some good to be found in most organizations of power; if not good, at least tendency to good. Hunting out this redeeming quality should not retard forward-looking activities to supplant the less good with better. The point is, to find what is good in the existing circumstances, and to develop and build on that for a strengthening of the good.

Two kinds of criticism are possible: that which proceeds constructively to build out of an adverse situation a structure conforming, as far as the factors will permit, to the ideal of the critic; and the kind which, after the "mud-slinging" is over, settles back to wait for another political upheaval. The latter variety gets nowhere, accomplishes nothing. On the first kind has the progress of the nation invariably been founded.

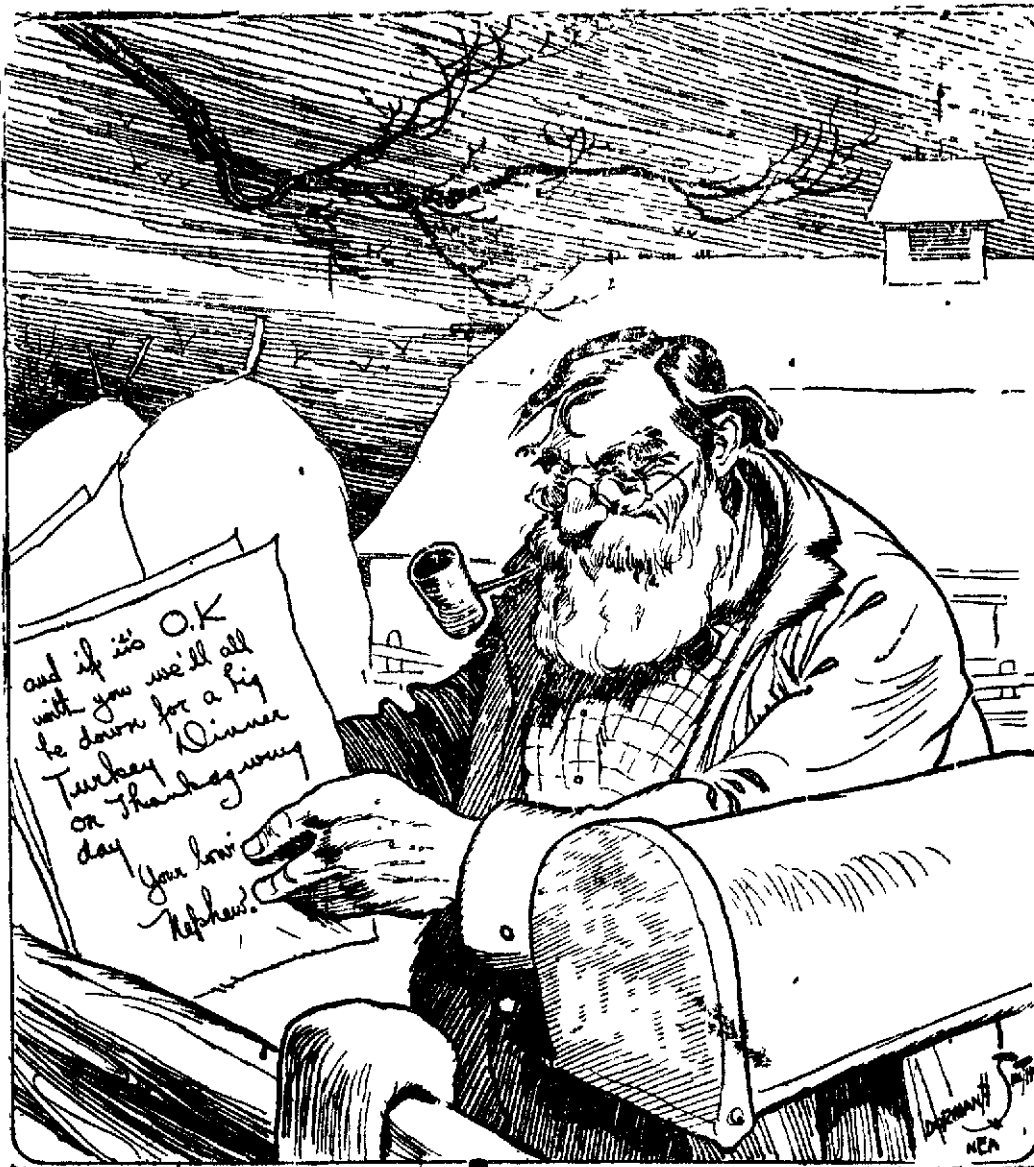

"How I Did It"

"I AM a Railroad man. Pretty far up in the Railroad World, but pretty low down eleven years ago when I began my first Bank Account. Wanted my home—started to save—and eight years later bought a beautiful little home without any mortgage on it."

Railroad men have a clear track through life when they set their signal with an account here.

Studebaker

Order Your Christmas Studebaker Now!

In order to have a Studebaker Light-Six Sedan at the door when the family comes downstairs Christmas morning, you should place your order now.

The Sedan is the ideal gift because it will provide happiness for all the family—all the year—and the years to come.

The sturdy body of the Light-Six Sedan, like the chassis, is built in Studebaker plants. It is constructed to give long, satisfactory service. Only the finest materials are used. Craftsmanship is unexcelled.

It is cradled on long, strong, semi-elliptic springs. The nine-inch seat cushions, upholstered in mohair velvet plush, are restful. The heater, cowl ventilator and the wide windows, among many other features,

add to its year-round comfort and utility.

The reliability of the Studebaker Light-Six Sedan has been proved in the hands of thousands of enthusiastic owners.

It is strictly a quality car. Its low price of \$1550 is possible only because of complete manufacture in one of the most modern and complete automobile plants in the world. This means the elimination of middlemen's profits, and the savings are passed on to you.

And back of the beauty and dependability of the Light-Six and its completeness, its advanced design and precise workmanship, is the Studebaker name, which after 70 years enjoys public confidence and respect more than ever.

Heater, Eight-day clock, Theft proof transmission lock, Cowl ventilator, Side coach lamps, Run vicer and windshield wiper, Inside locks on three doors and outside lock on right hand front door, Silk roller-curtains. Four doors that swing wide open. "Dome light" Mohair velvet plush upholstery.

**CLARION BOY KILLED**

SELF BY ACCIDENT

Clarion, Nov. 22.—Edward Noblit, a 16-year-old lad of Clarion, met instant death yesterday when he leaned on the muzzle of his gun which was accidentally discharged and blew away a portion of the left side of his body, the entire load taking effect on the heart. He was out hunting rabbits with a companion and they had come to a stand where they expected the dogs to round up a rabbit, and when Noblit placed the butt of the gun on the ground he leaned on the end of the barrel and the jar probably discharged the load.

**PROMINENT WOMEN

Try Our Progress Job Department

**Work Halts On the New
Road Between Grampian
And Luthersburg Today**

Advices from Grampian last evening stated that the Pottsville Construction company, which has the contract for the improved road between Curwensville and Reams watering trough, had tied up operations for the season. The pouring of concrete stopped at a point near the Walker farm, about 1-2 mile from the point to which the road is laid from Grampian up past the D. D. Miller farm.

It is figured out that when all of the concrete is opened for traffic that it will leave about four miles of dirt road between Grampian and DuBois. It is expected that the concrete at this end of the road, beginning at the wide sweeping curve near Fagley's will be opened shortly, making possible a detour via the Bilger road into Grampian.

**BLOOMSBURG JAIL
HAS ONLY TWO MEN
SOJOURNING THERE**

Bloomburg, Pa., Nov. 23. (U. P.)—The Columbia county jail is not a very popular place, as there are now only two prisoners "vacationing" there. This is the smallest number since Howard Gunther has been there off, he says.

Twice during the term of ex-sheriff Hilday there was but one prisoner in the jail.

Fish Whose Flesh is Poison
No known land animal has naturally poisonous flesh. There are, however, several fish whose flesh is deadly.

**A. E. F. Glad To Get
Home From Germany**

Berlin (By Mail to United Press).—The American forces in Germany are glad to go home.

Until recently the few remaining members of the American Army of Occupation at Coblenz were satisfied to remain. There reasons were numerous. They are regular army men and as such were satisfied to remain at such posts as the government ordered.

Now that many of their enlistments are near expiration, the soldiers are beginning to think of Christmas with the folks. Prices are climbing. Only a few hundred American soldiers remain. Coblenz isn't the American center it was when thousands of khaki-clad men were seen on every street, in every hotel and cafe.

"Them Days are Gone Forever," according to the American, the A. E. F. paper.

"Whenever soldiers gather," the American declares, "a great deal of the conversation is taken up with specu-

lation as to the date of our departure. The cries against leaving are not as positive as heretofore. An excellent example of the change of sentiment was the attitude of the crowd at the departure of a casual detachment the other day.

"Upon former occasions when troops were departing they were invariably sympathized with by those remaining and appeared to accept sympathy as appropriate. At the last train however, the situation might be said to have been reversed. Many of those on the platform expressed a wish to be on the train and no signs of downheartedness or regret were exhibited by those leaving. They were, as a whole, really glad to be going. The reduction of forces has changed the atmosphere of the entire community."

Squirrels Supply Brushes
The camel hair brushes so popular with artists for they are made from squirrel's hair.

Resounding Laudation.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

born, to Mr. and Mrs. Francis Malton at their home on Grampian road, on Sunday night, a young son. As this is the first born the mother and father are unusually delighted.

An infant child of Mr. and Mrs. Paul Dale died after a few hours illness yesterday forenoon.

John Kelly, went to Rockton yesterday to attend the funeral of Scott Kelly, a brother-in-law, who died in the Maple Hospital, DuBois, a few days ago. He was aged 65 years and survived by a widow and several children. Interment was made in the cemetery. He was well known and respected in the section when he made his home.

Curwensville is due for another one of those cut price stores. The old Bedford store building on the corner of State and Walnut streets has been leased and being prepared to receive a stock of general groceries. A butcher shop will also be added and sold at a lower price than the folks of town have been paying for meat of all kinds. This will make the sixth cut rate store in Curwensville and the end is not yet.

Port Piles, a butcher of large experience, claims the honor of slaying the biggest porker of the season. Last Tuesday he went out to the farm of El. Bloom and downed one that tipped the scales at 640 pounds, dressed he also made 350 pounds of sausage from the same animal.

Last night the Red Men celebrated in their new rooms on third floor of Fullerton block. An unusually large number of Indians were present to inspect new medicine lodge and wigwam. After the regular lodge formula had been transacted, the time for pow-wow came, and for an hour much talk was indulged in by braves, both old and young. Then came the feast and as there was plenty of provender no one went away hungry. The new rooms have been elaborately painted and furnished and the tribe can now boast of having the finest and most up to date lodge quarters to be found anywhere in the county, barring none. This society has now about \$7000 invested. A large social room is a feature that will prove a great advantage to the members of this order.

Members of Chamber of Commerce will assemble in their room, Fullerton block, tonight. Business of importance will be presented and each member is earnestly requested to be present.

William Holden, of Clearfield, and by profession an undertaker, came from the county seat last evening to assist in the dedication of the new Red Men's rooms and get away with his share of the "eats." "Billy" is a jolly good fellow and is always a welcome visitor to our village, in which he was born and reared.

The program for the celebration of the 50th anniversary of the institution of Bethesda lodge 821, I. O. O. F. is about completed. The exercises will be held in the Opera House instead of the regular lodge room. A banquet will follow at the ending of the numbers on the program.

FOOD SALE

Everything for Thanksgiving dinner held at the Jitney Station, Curwensville, on Tuesday afternoon from 2 until 4 o'clock. Leave orders on Saturday. Benefit Presbyterian Missionary Society. 11/23/12

A WORTH WHILE PROJECT

The American Legion Post of Grampian, the Ladies Auxiliary of that post and the Grampian Band, have joined hands in arranging a benefit for the family of a blind man resident of that community. This man was stricken blind about four years ago. Since that time he has made a brave struggle to make ends meet and with the assistance of a small son has been doing admirably by house to house canvassing. For four months, however, he has been unable to work. Go to Grampian Saturday night and participate in the cake walk and general good time that is going to be had while the money is rolled in for this deserving man.

PUBLIC INVITED TO OPENING OF HANDSOME SCHOOL BUILDING AT HYDE CITY

The school directors of Lawrence township, headed by Peter Gearhart, President, have erected a handsome four room, modern heated and lighted, school house at Hyde City to house the rapidly growing population in that vicinity. The building will be completed today and the school board has decided to hold open house tomorrow evening to afford the citizens an opportunity of meeting today in mutual admiration of the building where their children are to spend so much time. Tomorrow evening at 7:30 a program will be carried out, headed by County Superintendent Trostle and Professor Zerfoss as speakers. There will also be other speakers and a thorough good time is anticipated. Every patron of the school should be there. Visitors from other districts will be welcome. The school will be open for regular sessions next Monday.

Today's Wise Word.
The tenderness of a faithful woman is a refuge. It is a port after a storm, the rainbow after a tempest.

Ice Used to Start Fire.
In the absence of glass, ice has been used to focus the sun's rays in starting a fire.

Ends colds simply and safely!

This proven remedy checks colds before they develop into serious ailments. It soothes tired, scratchy throats, loosens disagreeable phlegm and soon breaks up the cold. Now—don't let your cold linger on—ask your druggist for **DR. KING'S NEW DISCOVERY**—a syrup for coughs & colds.

DUBOIS HAS

(Continued From Page One.)

tel of tracks have the veteran line-man Stratton to depend on as snapper-back. Stratton weighs 184 pounds and has 3 years varsity ball to his credit, so it is apparent Capt. Withers, the Clearfield center, has his work cut out for him.

Heavy Line From Tip To Tip.
Peifer and Faulkner, ends, average 160 pounds, which is the heaviest wing combination to face C. H. S. except Lock Haven's flank artists. Peifer does the century in 10.2. Big "Bull" Beightol, 204-pound guard, and Karl Keys, tackle, are other star performers on Coach Treadwell's outfit. Keys, according to the DuBois papers, is the surest tackler ever turned out at the third class city institution. With such a heavy line rush, the DuBois eleven should have a powerful punch on mass formations.

Clearfield Stars on Injured List.
Hody Johnson, star all around back, may not be able to play Saturday due to a twisted knee. Last night in scrimmage Hody received the injury when tackled by a scrub player from the side. Johnson's knee was just getting in good shape again, as it was "knocked out" in the Mt. Union game. Giant Ganoe, powerful Red and Black guard, has not been able to don grid togs since Monday, as he is suffering with a double infection on his foot. The rest of the players are in fair shape, with no serious casualties.

New Plays and Formations.
Coaches Reed and Flegel worked the entire squad as long as the fading day permitted on several new plays and formations especially for the DuBois game. Considerable attention was also given to the local's defensive play, which has been the cause of most of Clearfield's defeats. In every game C. H. S. has been able to gain first down after first down, but were unable to stop their opponents at the crucial stages of the game. Alert defensive halfbacks must be developed to smash DuBois' passing game, and the Red and Black forwards must tighten up and prevent a continuation of "punt blocking." In the Lock Haven and Williamsport games, Clearfield punts that were blocked were responsible for two enemy touchdowns, and victory, at Billtown.

BIG GAINS IN OUR EXPORTS TO SOUTH AMERICA

By O. P. AUSTIN - STATISTICIAN

THE NATIONAL CITY BANK OF NEW YORK

(FROM THE WEEKLY TRADE RECORD ISSUED BY THE NATIONAL CITY BANK)

Exports from the United States to our neighbors in South America show remarkable gains in the new fiscal year which began with the month of July. This is the more remarkable because of the fact that the fiscal year ending with June had shown a reduction of more than 60% in our exports to that continent. Every month since the opening of the new fiscal year, according to the Trade Record of The National City Bank of New York, has shown big increases in the value of exports to South America despite the fact that most of the merchandise leaving the country is going at lower prices than a year ago. In fact, the value of the exports sent from the United States to South America in the 3 months of July, August and September, 1922 totals 36% more than in that same period of last year, while the total value of the exports to North America in the same period showed a decline of 11% to Europe a reduction of 19% and to Asia and Oceania no change when compared with the same months of last year. The South American market therefore is the one in which our exports show big gains in the new fiscal year 1922-3.

This increase in our sales to our South American neighbors is especially interesting in view of the

fact that manufactures form the bulk of the materials which they buy from us. And it is in the exportation of manufactures that we are most concerned in considering the future of our export trade. All the world comes clamoring to our doors for our foodstuffs and raw materials especially bread and meats and cotton, of which our surplus is constantly growing less with our increase of population, but it is in manufactures that we must make our fight in world markets. On the other hand, we clamor at the doors of other countries producing tropical foods and manufacturing materials such as coffee, cacao, india rubber, wool, nitrates and other of the natural products of South America, and it happens that our South American neighbors have not yet become manufacturers in any large degree the interchange between the two continents is a perfectly natural one for we of the United States are now the largest manufacturing country in the world.

So it is interesting to see that the quantity of cotton cloths sent to South America in August, the latest month for which details are available, was 50% more than in the same month of last year; newsprint and book paper more than doubled that of the same month last year; galvanized iron sheets

over 4,000,000 pounds against one-half million in August, 1921; tin plate three times as much in value as a year ago; wire over 13,000,000 pounds against less than 1,000,000 in August, 1921; and of automobiles sent to South America the value in August, 1922, was ten times as much as in August, 1921. And these are merely examples of the increasing regularity of American manufactures with our South American neighbors.

We are reciprocating to the generosity by taking increased quantities of these merchandise, for in July of the current year our imports from that continent showed an increase of \$10,000,000 when compared with the same month of the preceding year. August a gain of \$10,000,000 and September a gain of \$10,000,000 over the same month of 1921, these increases in our purchases of their products including coffee, cacao, wool, hides and skins, india rubber, nitrates, and many other articles of tropical and sub-tropical growth for which we are dependent upon other countries. And the increase in the exchange of the products of our factories for those of the fields and forests of our nearest neighbor, South America, is an encouraging feature of our after-war trade.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

The Store That Puts The "Y" In Home And Makes It "Homey"

We have the furniture in oak, walnut, mahogany, and other finishes for every room in your home. We can supply your kitchen with linoleum, either two or four yards wide, or linoleum rugs, kitchen cabinets that are a joy to the women, and that enameled range that never needs the weekly "shine." To see them is to make you wonder how the women of yesterday ever lived without them.

The Dining Room with a rug that rests the eye, an American Walnut Dining Suite,—buffet, china cabinet, round or square table, and chairs to match—who could resist an invitation to dine amid such surroundings with a genial host if there be good things to eat. Our store can supply you with your needs in this line at prices so low you cannot afford to be without them.

For the bedroom we can show you the iron beds in White, and Mahogany Enamel, in Brass, in Walnut, Oak, Mahogany, and other finishes with Dressing Tables, Dressers, Chiffoniers and Chairs to match the finish. We handle the Silk Floss Mattress and Hercules Springs. Equip all your bedrooms with these modern comforts and be assured that all in your home are resting well when sleep-time comes.

Then, look to that Living Room where you entertain your friends. Let us supply you with the latest Over-stuffed Suite, the Davenport Table, Electric Floor Lamp and Luxurious Chairs and Rockers, and the Rugs for this room. You will find it is easy to keep those boys and girls at HOME if you add the "Y" and make it HOMEY. If we don't have what you want we'll get it for you.

Mother's Assistance Is Given Near 2 Thousand Families During the Year

Harrisburg, Pa., Nov. 23. (U. P.)—The Mothers' Assistance Fund in Pennsylvania is now helping 2,450 families, including the care of 9,015 children, Miss Mary Bogue, Supervisor of the Mothers' Pension Bureau, announced today.

At the same time there are now on the waiting list 4,500 families with 17,000 children, for whom there are not sufficient funds. The State appropriated \$1,000,000 for the two year appropriation period to which the counties in which aid is extended add another million.

Fifty-four of the 67 counties of the State have organized Mothers' Assistance Fund work, Miss Bogue said. Many inter-county conferences of Fund trustees have been held. The next ones will convene in Erie, Dec. 6, and in Pittsburgh, Dec. 13.

In outlining the work of the bureau, Miss Bogue stressed the fact that more than mere financial aid was extended to needy families. Administrators of the fund endeavor not only to build up the proper home life, but to aid in the health, educational, and disciplinary development of the children by monthly visits and constant attention.

SCOUT NEWS

Miss Lorain Allen of Troop 9, entertained her troop and their guests at a theatre party Saturday evening, supper being served afterwards at the home of the captain, Mrs. Herberg.

Troop 8 had a campy sale Saturday noon with the assistance of their captain, Mrs. Leslie Wise. Over \$8.00 was realized toward the purchase of uniforms.

Practically all the troops will have the Tenderfoot Test by the end of the week, all will be able to enroll at headquarters in New York as full fledged scouts. All meetings are now being held in the new home of the scouts, though like many new homes, it is rather bare as yet. Community

Service is providing the home itself with light, heat, phone, a victrola and the bare necessities in the furniture line. The scouts are ransacking attics for spare or cast-off family treasures.

"THE HAPPY MAN"

First rehearsal of one of the plays to be given by members of the dramatic institution was held in the High School Tuesday night. Work on the children's play, "The Magic Path" to be given by the West Side school, was also begun on Tuesday.

The general institute committee met last night to discuss and lay plans for a permanent community dramatic organization. It is hoped that every one with an interest in

PAZO OINTMENT instantly relieves ITCHING PILES and you can get restful sleep after the first application. 50c.

Organ Perfected Which Will Throw Light Rays In Harmony With Music

Pittsburg, Pa., Nov. 23. (U. P.)—The light and color organ has at last become a fact, Mrs. Mary Hallack Greenewalt, inventor, has announced.

After sixteen years of labor in perfecting an instrument which will throw out light in myriad shades of color in harmony with the music being played, a color organ is under construction here for Pierre B. Dupont, multi-millionaire of Wilmington, Delaware.

"The art of color and music combined," says Mrs. Greenewalt, "will adapt itself to concerts, theatres,

moving pictures and every place where there is music. In a church, for example, think of the 'purple light of religion' on the marble altar of the cathedral—that color accompanying music of the same spirit."

Mrs. Greenewalt is said to have the support of Leopold Stokowski and other musicians and orchestra leaders.

SULPHUR SOOTHES
UGLY, ITCHING SKIN

The First Application Makes
Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist.

This sulphur preparation, because of its germ destroying properties, seldom fails to quickly subdue itching, even of the most obstinate. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Rowles Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.

EIGHTY-TWO BODIES REMOVED FROM MINE IN ALABAMA WHERE DUST EXPLODED

All Who Were In Mine
Now Accounted For;
Many of Those Rescued
Will Probably Die.

400 MEN ENTOMBED

Birmingham, Alabama, Nov. 23.—Up to noon today eighty-two bodies have been brought to the surface in the second greatest catastrophe this state has ever known. Yesterday afternoon while over four hundred men were working in the Delemit mine a dust explosion occurred which entombed all workers and threatened to smother the lives of all of them. It is expected that the death toll will mount to at least one hundred as several of the seventy-five or more men burned or injured are in critical condition. The rest of the men have been found, huddling in corners of safety, and for the most part unharmed, except for shock and weakness from bad air.

Miners who were called to hold back screaming women and relatives of the entombed men pending their rescue, were still silently packing back and forth in front of the operation to keep the crowds of the curious away from the mine. The work of rescue progressed reports brought to the surface grew less hopeful. One squad reported bodies strewn all along the main passage.

As the work of rescue progressed reports brought to the surface grew less hopeful. One squad reported bodies strewn all along the main passage.

As the work of rescue progressed reports brought to the surface grew less hopeful. One squad reported bodies strewn all along the main passage.

M. P.'s

AGED WOMAN TELLS GRAND JURY WHAT SHE SAW NIGHT OF COUPLE'S MURDER

Sommerville, N. J., Nov. 23.—An additional feature of interest was projected into the Hall-Mills investigation before the Grand Jury today when it became known that a Mrs. Vorhees, a grey haired elderly woman who lives near the scene of the murder had given testimony which heretofore had been kept a secret. Mrs. Vorhees says she witnessed the arrival of the two automobiles, heard the arguments and saw the cars depart after two shots had been fired. She said she was attracted to the window of her home, which is about two hundred feet from the rustic lane leading to the murder scene "by a commotion outside" and saw two automobiles stop. She also saw a number of people, just how many or what they looked like she could not say. They engaged in an argument which grew loud enough that she heard someone say "What are you doing here?" and "What do you mean?" She then heard two shots after which the two machines sneaked away toward New Brunswick.

The Grand Jury will adjourn today and will not sit again until Monday.

KELLER IS ASKED TO PRODUCE EVIDENCE AGAINST DAUGHTERY

Washington, D. C., Nov. 23.—The House Judiciary Committee today served notice on Representative Keller that he must submit fuller and more complete evidence on the charges preferred against Attorney General Daugherty by December 1. The Committee will hear the charges on December 4th.

BARON SONNINO, OF "BIG FOUR" FAME, SUFFERS A STROKE

Rome, Nov. 23.—Baron Sonnino, Italian member of the "Big Four" of war time suffered an apoplectic stroke of the brain here today and is in a serious condition.

SEND THESE CHILDREN HOME!

We have heard a great deal of comment from time to time concerning the Chest Creek country its customs and its officers of the law, but it remained for "Squire Westover of Westover to cap the climax when on Tuesday last he issued commitments for and sent to Clearfield under heavy guard, two desperados or alleged desperados, charged with the more or less obsolete crime of horse stealing. When Sheriff Tom Lowell was advised that two horse thieves were enroute to the county jail, he at once got out his ball and chain, "Oregon boot" and all the other mechanical devices used in the dim and misty past to aid in the detention of desperate criminals.

When the Chest Creek Constable arrived with the horse stealers in charge the Sheriff had several heavily armed deputies located at vantage points about the jail entrance to provide against any possible attempt to escape on the part of the desperate characters he expected to receive.

When a long, lean, lanky Constable

hopped up the steps with a couple of kids at his heels, Tom halted the newcomers and told them they could not visit the jail at that time as the "deck had been cleared for action" and the reception committee was ready to receive a couple of Chest Creek horse thieves and "bad men."

Proudly rattling his home made tin badge of authority, which was as big around as the bottom of a three gallon lard can, the man with the boys in tow replied "Well, I swan; I be the Constable from Westover, and these here fellows are the horse thieves, by heck, and here's 'Squire Westover's commitment to prove it, by gum."

The Constable was right too and the Sheriff then learned that the two kids were the desperados he was led to believe were to be placed in his care and keeping.

The little lads were William and Melville Lee, aged 9 and 8 years respectively, and they had been committed to the county jail by the Justice of the Peace charged with horse stealing.

Wouldn't that jar you in this age of supposed enlightenment and common sense.

The "desperados" appeared to be satisfied they were "bad men" but instead of being placed in the jail were taken by the kind-hearted Sheriff and his good wife, with kids of their own, to the nursery or juvenile department, where they are being looked after.

The prisoners entered pleas of guilty to the crime with which they were charged and here is their story: Their father is working or living in a town a few miles from Westover and desiring to visit him and having no other means of travel the kids annexed a convenient horse and buggy without saying by your leave to the owner and the legal machinery of the law was invoked and the strong arm of the law of the Commonwealth of Pennsylvania reached out and grabbed these youngsters, just out of the cradle, and they were promptly branded as felons by the Justice in question and sent down to a prison cell.

AUTOISTS CRY OUT "I'M CURED" WHEN FORCED TO ATTEND FUNERAL OF AUTO VICTIM BY COURT ORDER

Cleveland, Nov. 23.—Seven-year-old Catherine Gilmore was buried yesterday afternoon, and at her funeral were five motorists, convicted of violating traffic laws. They were serving a sentence imposed on them by Traffic Judge Sawicki.

They heard the Rev. W. P. Haggerty deliver a sermon upon "Thou Shalt Not Kill."

On pronouncing sentence, Judge Sawicki said: "You are guilty of violating traffic laws. You are ordered by this court to attend the funeral of Catherine Gilmore, seven years old. She was

killed by a motor car. I am not passing this sentence because you are guilty of any infraction of the law other than that with which you are charged.

"I am acting because I feel I must bring home to you the seriousness of careless driving. If by any action one child's life is saved, it is worth while."

The Rev. Haggerty said: "My friends, are we not forgetting the laws of God? The Fifth Commandment says, 'Thou Shalt Not Kill' and no modern invention gives

(Continued On Page Two.)

HOME BREW CLAIMS VICTIM AT ERITON; MOONSHINE DID IT

DuBois, Nov. 23.—John Pernovac, aged 40 years, died sometime Tuesday night at the home of his friend, Costica Staskibic, of Mapledale, near Eriton, from drinking home brew.

Staskibic is the father of three small children and had left them in the care of his friend, Pernovac while he went hunting. The mother of the children is in the asylum for the insane at North Warren, Pa. When Staskibic returned to his home Tuesday night he found his friend in a drunken stupor from which he could not be aroused. Staskibic, thinking Pernovac would be alright after sleeping all night, left him and went to bed. About three o'clock in the morning he awakened and went to Pernovac to see how he was and found he had died some time during the night.

Coroner J. I. Pollum investigated the case and found death was due to an overdose of moonshine.

The deceased is survived by a wife in Europe.

BONAR LAW HOPES FOR U. S. HELP ON LEAGUE PROBLEMS

London, England, Nov. 23.—British hope for American participation in old world affairs was expressed by Premier A. Bonar Law today in a statement in which he referred to America as the "most idealistic nation."

"I trust that the time will come when America will come to the assistance of the League of Nations. By such action the value of the league would be materially increased."

REFUSE CHILD HABEAS CORPUS

Dublin, Ireland, Nov. 23.—A habeas corpus application in the case of Erskine Childer, De Valera's chief lieutenant, was refused today.

Visitors from Girard township yesterday included Mrs. Martin Martell and James C. Leigey.

DUBOIS HAS STRONG AGGREGATION FOR GAME SATURDAY

Visiting Team Will Be
Here With Stars, Both
Speed and Weight, and
Great Game Is Certain.

LOCALS CONFIDENT

By DICK LEIPOLD
Coach Eddie Treadwell, DuBois' grid mentor, will bring one of the strongest teams developed at the county metropolis in recent years to battle the local school Saturday. The Black and White machine is fortunate in having unusually experienced men at important positions this fall, especially on the offensive play. Treadwell's pupils are apt. Captain Burns, playing his fourth varsity year, is reported to be a terror on line plunging, and also is a strong defensive back. Bill Nofaker, 200-pound battering ram, has been playing full and acting as a regular harvester when it comes to taking out men on end runs. Cliff Johnson, fleet halfback, does all the kicking from scrimmage and has quite a reputation as a placement goal booter. Johnson's 50-yard dash with an intercepted pass enabled DuBois to defeat Curwensville High 14 to 7. "Chuck" Kline, 168-pound quarterback, runs the team as his three years of varsity experience warrant. Kline's middle name is versatility, as he is adept in catching passes, running the ball and passing. This quartet (Continued On Page Two.)

SIX BANDITS VISIT MISSOURI TOWN AND ROB BANKING HOUSE

Gallatin, Missouri, Nov. 23.—The mayor, the town marshal and a hotel keeper were wounded here at four o'clock this morning when bandits made an attack on the bank, captured and overpowered the marshal, blew up the bank and got away with over four thousand dollars in cash.

The bandits, believed to have been six in number, and from the underworld of Kansas City, swooped down on the city about 4 o'clock this morning and after gaining access to the bank, placed two heavy charges of explosives at the vault door. The two charges exploded, cracked the safe in half like a paper box, scattered furniture and fixtures to the four winds and made the office partitions into kindling wood. The bandits escaped.

SENATE DEMOCRATS CHOOSE SIMMONS FLOOR LEADER

Washington, D. C., Nov. 23.—Senate Democrats in caucus today virtually chose Senator Simmons of North Carolina as their leader to succeed Senator Underwood of Alabama.

MARRIED AT CUMBERLAND
Clifford L. Ogden, of Milltown, and Rena May, daughter of Grampian, were a Clearfield county couple to get a marriage license at Cumberland Md. Wednesday.

A Modest Hero

Robert J. Kneiser, 24, has formed no feat of extraordinary gallantry. His courage was shown in a simple way. This is his story: Without outside aid, this 19-year-old boy spent 43 days patrolling the turn-out house of his parents in Kearney, N. J. He thereby saved his parents \$150.

HIGHWAY COMMISSIONER BILES URGES SPEED PROHIBITION FOR AUTOISTS TO CUT DOWN TERRIBLE DEATH RATE

Harrisburg, Pa., Nov. 23.—Speed prohibition comparable to liquid prohibition may be imposed upon the automobile world by an outraged public, unless something is done to curb America's speed mania, George H. Biles, highway commissioner of Pennsylvania, declared today.

It is conceivable, Biles pointed out by the mounting thousands killed by automobiles, may bring about legislation imposing such drastic regulations upon automobile use as to harass the industry virtually out of existence unless the speed death problem is solved.

"Unless something sane and reasonable is done to save us from a condition fast growing intolerable, we see life saving laws restricting the power of our automobiles," said the commissioner. "That sounds ridiculous. Is the fact that a score or more people are killed by automobiles in America every day ridiculous?"

"Over 850 people have been killed by automobiles in Pennsylvania so far this year. The material speed and wanton disregard of the safety and rights of others practiced by some automobile drivers constitute a problem that must be solved immediately. "With the number of motor cars increasing until the country is literally swarming with them the whole question is one that demands a sense of proportion. We must not let this mechanical thing become a kind of Frankenstein to destroy its creators. "I should recommend above all else a strict enforcement of existing speed regulations. Moderation must be forced upon these ungovernable senseless to protect their own lives. "To motor manufacturers and dealers must accept some sense of responsibility for the situation and work from within the industry to keep owners and drivers within the bounds of reason."

Most Powerful Warships For The British Navy

In Spite of Disarmament Agreements,
England to Build Fighting Monsters

Washington, Nov. 23. (U. P.)—Great Britain's navy will have the largest and most powerful warships afloat when the two new battleships which are to be laid down in January are completed.

Not even the two new super-dreadnoughts now to be added to the fleet can equal them in size, speed, armor, and armament, in the opinion of naval experts here based on press descriptions of the new ships.

These ships will also believe the admiralty will give it a considerable margin over the United States even in armor plating, the bases on which the 15,000 ratio of naval strength for England, the United States and Japan was figured in the naval treaty.

The original agreement would have prevented the building of the Colorado and the West Virginia, the two battleships now to be completed, and which Japan's in turn was to build the Mutsu, one of her 17,000-ton battleships. As a result England was permitted to build the two battleships not to exceed 15,000 tons each.

In view of the national demand for economy in England and the fact that with her excess of powerful cruisers and other auxiliary craft, it was generally believed here that Great Britain would not take advantage at this time of her right under the treaty to build the new capital ships.

Cause Surprise

Press reports therefore that contracts had been let for the two vessels and they would be laid down in January caused considerable surprise. Construction experts here point out that with no limit of cost, so that the finest steel and other material, as well as workmanship, can be used, 35,000-ton limit will impose little handicap on the constructors. The cost of each, according to the specifications, is to be \$40,000,000. This of course gives British contractors much more leeway than the same figure would here, both labor and material being much cheaper.

Except for the battle cruiser Hood, headliner of the Royal Navy, with her 41,200 tons, the two new fighters (Continued On Page Two.)

CLEMENCEAU UNDER FIRE IN CONGRESS; INVADES NEW FIELDS

Washington, D. C., Nov. 23.—With United States Senators denouncing his utterances from the floor and a storm breaking in the House Georges Clemenceau today left New York to invade New England. Newspaper men were the "seeing" committee, the city or state taking no notice of the departure of the distinguished visitor.

Clemenceau was attacked on the floor of the Senate by Senator Hitchcock, former chairman of the Committee on Foreign Relations. He declared that if France had to send an envoy to the United States she could have sent one better fitted than Clemenceau, whose utterances from the platform had been nothing but criticisms of this country's attitude toward Europe since the ending of the war.

ODDS AND ENDS AND THINGS

By J. D. C.

It costs the people of Pennsylvania more than \$47,000,000 annually to care for dependents, delinquents and defectives. She divided this amount as follows: Tuberculosis, \$1,495,647; workmen's compensation and poor boards \$12,388,714; hospitals, including those owned or aided by the state, \$8,564,861; constructive work for children, \$7,177,040; and care of the inmates in asylums, jails, adult homes and penitentiaries, \$17,243,995.

T. Henry Walnut, Philadelphia attorney, in talking to the women's Voters League last week made the following comment on prohibition and the way it was received by the average Pennsylvanian:

"Unless the evils of prohibition are corrected, prohibition will corrupt the entire government," declared Mr. Walnut. "Until prohibition arrived the Federal service was the square and most upright in the world. The arrival of prohibition brought a completely new conception of what the Federal service could be. A few years ago any talk of corruption was a once traced to its source. In 1900 stories of graft, fraud and corruption in the Federal service, affecting almost every one in the service, were common. They seemed to be taken as a matter of course and little attention was paid to them."

Mr. Walnut said the only difference prohibition had brought about in Philadelphia was to decrease the number of saloons and bring into being a great crop of bootleggers. "The difficulty is that the average man does not appreciate that there is nothing wrong in buying a drink," he said, stating that as long as people are willing to buy liquor some one would sell it.

The LeBrasca born without arms or legs at Chicago will not be scientifically killed.

Mother love decrees that she shall live.

"This is my cross to bear," the baby 10-year-old mother, Mrs. James LeBrasca, said today when told of the first time that her baby was physically deficient.

Scientists, surgeons and sociologists had been discussing in the public press in matter of fact, analytical phrase the question: Would not the baby be better off dead? Would not be more humane to scientific the disease of the child? Had not the Harry J. Hail's confusion come ago to perform an operation it would have saved that baby's life? Because he knew the baby would become a homeless imbecile?

But—Baby LeBrasca's case is going to be different. The theories of science are often like grain before the scythe, through the dictum of mother love. Mrs. LeBrasca will bear her cross.

"Maybe," the frail little mother said to Dr. S. T. Bolstead, the attending physician, "maybe God will be good to her."

And the father, James C. LeBrasca, a medical student, who had at first regarded thee bone, according to Dr. Bolstead, that "Providence would be kind and take the baby," echoed with tears in his eyes, the mother's fervor.

If Back Hurts Flush Kidneys

Eat less meat, also take glass of Salts before breakfast occasionally.

Too much meat may form uric acid which excites the kidneys; they become overworked; get sluggish, ache and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region; you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Drink lots of water; also get from any pharmacist four ounces of Jad salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to help neutralize the acids in urine, so it is no longer a source of irritation, thus often ending bladder weakness. Jad salts is inexpensive, can not injure, makes a delightful effervescent lithia water drink which everyone should take now and then to help keep the kidneys clean and active. Druggists here say they sell lots of Jad salts to folks who believe in correcting kidney trouble while it is only trouble.

vent prayer. "I want my baby to live," he said. "I do want her to live."

Dr. Bolstead never for a moment thought of scientifically doing away with the baby. "Our business," he said, "is to preserve life, not destroy it."

Fifty thousand dollars for a single strawberry plant was paid by Frank E. Beatty, president of a firm of fruit growers at Three Rivers, Mich. 22/22.

The plant is to be known as "Rockhill," in honor of its breeder, Harlow Rockhill, of Conrad, Ia. The price is believed to be the highest ever paid for a single strawberry plant. The plant bears in early summer and has a good production in the late summer, bearing until frost comes.

Mr. Beatty says he will risk his reputation as a strawberry expert that it will revolutionize strawberry growing. He says it produces delicious fruit in spring, and from late summer until a frost. The reasons he gives for his record price for the exclusive right to propagate the berry are:

"First—It produces more berries—bigger berries and berries of higher quality in the early summer than any of the most popular early summer varieties."

"Second—During the fall months Rockhill plants are continually loaded with big, bright, red berries, green berries and blossoms, and it continues this heavy fruiting until snow."

"Third—Both spring and fall berries have firm texture making it a splendid shiner and good keeper."

"Fourth—No variety now in existence will equal Rockhill in either productivity or quality of berries. Extremely hardy, it will succeed in coldest weather."

"The Rockhill was originated by Harlow Rockhill, of Iowa in 1918. It never has failed to produce a big crop both summer and fall. All strawberry experts who have seen the Rockhill fruiting agree with me it is the greatest strawberry under the sun. The plants root deeply, grow luxuriantly. A single hill is almost as large as a bushel basket. The great vitality and vigor of the plants enable them to produce abundantly perfectly healthy berries. It has enough leaf surface to be not affected by any plant disease."

HER AILMENTS ALL GONE NOW

Mrs. Sherman Hedged by Lydia E. Pinkham's Vegetable Compound

Lake, Michigan. "About one year ago I suffered with irregularities and a weakness and at times was obliged to stay off my feet. I decided to try Lydia E. Pinkham's Vegetable Compound and finally said I could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and I am entirely cured of my ailment. I can now publish this letter if you wish."—Mrs. MARY SHERMAN, Rock Lake, Mich.

There is one fact women should consider and that is this. Women suffer from irregularities and various forms of weakness as different medicines. Finally I like Lydia E. Pinkham's Compound and Mrs. Sherman's experience is another case showing the merit of the well-known medicine.

If your family physician fails to be on the same old troubles persist why isn't it reasonable to try Lydia Pinkham's Vegetable Compound?

Insure Your Radiator

These are the times when you may run up against a sudden drop in temperature and you don't want the annoyance and expense of buying a new radiator.

Put the amount we specify of our RADIATOR ALCOHOL in your radiator and you'll be assured of radiator insurance during the coldest of weather.

Buying your alcohol here also gives you our radiator service—we will watch the radiator for you and see that your proportions are right to prevent freezing.

The ideals of democratic government and democratic education were planted simultaneously in our country. Ever since they have gone hand in hand and each has always been a supplement to the other. It has been a cardinal principle in the United States that everyone should have the opportunity of receiving an education. President Harding rightly stresses these facts in proclaiming the week of December 3rd to 9th as American Education Week.

Opportunity, indeed, is not lacking, but unfortunately it is not always availed of. The revelations to that effect brought forth recently when the draft system came to be applied proved, it is no exaggeration to say, a real shock to the nation. It was those revelations more than anything else that made the focusing of attention on the subject by some such extraordinary method as the holding of a special education week a necessity. Therefore in making his proclamation the President has shown that he is alert to the needs of the age and to the many benefits likely to accrue to the country from a more intensely developed attention to the universal spread of education.

The President regrets, and with reason, that so few young men and women, properly equipped for such service, are nowadays disposed to take up teaching as a profession. The situation in this respect of late years has in truth been such as to reduce school boards almost to despair. Good teachers and plenty of them are essential to every system of education. One result of Education Week ought therefore to be a determination in all parts of the country to offer such inducements in the way of pay and pension as will draw young people of the right caliber into the teaching profession.

The tendency of the male teacher to disappear rapidly from the ranks has been one of the hardest blows to education in the United States. Education Week will have served a useful function if it succeeds in restoring the balance as between the sexes.

Those who have strong party affiliations are often with difficulty reconciled in case of defeat. To them it seems as if the whole country, and perhaps the world, has been allowed to fall into the hands of machines that will bring about destruction. In any event, the only hope held out is often dated some years away at another election.

"The habit of looking on the best side of every event is worth more than a thousand pounds a year," said Dr. Samuel Johnson. Nowhere does this truth apply more aptly than to the disappointments incident to political machinations. There is some good to be found in most organizations of power; if not good, at least tendency to good. Hunting out this redeeming quality should not retard forward-looking activities to supplant the less good with better. The point is, to find what is good in the existing circumstances, and to develop and build on that for a strengthening of the good.

Two kinds of criticism are possible: that which proceeds constructively to build out of an adverse situation a structure conforming, as far as the factors will permit, to the ideal of the critic; and the kind which, after the "mud-slinging" is over, settles back to wait for another political upheaval. The latter variety gets nowhere, accomplishes nothing. On the first kind has the progress of the nation invariably been founded.

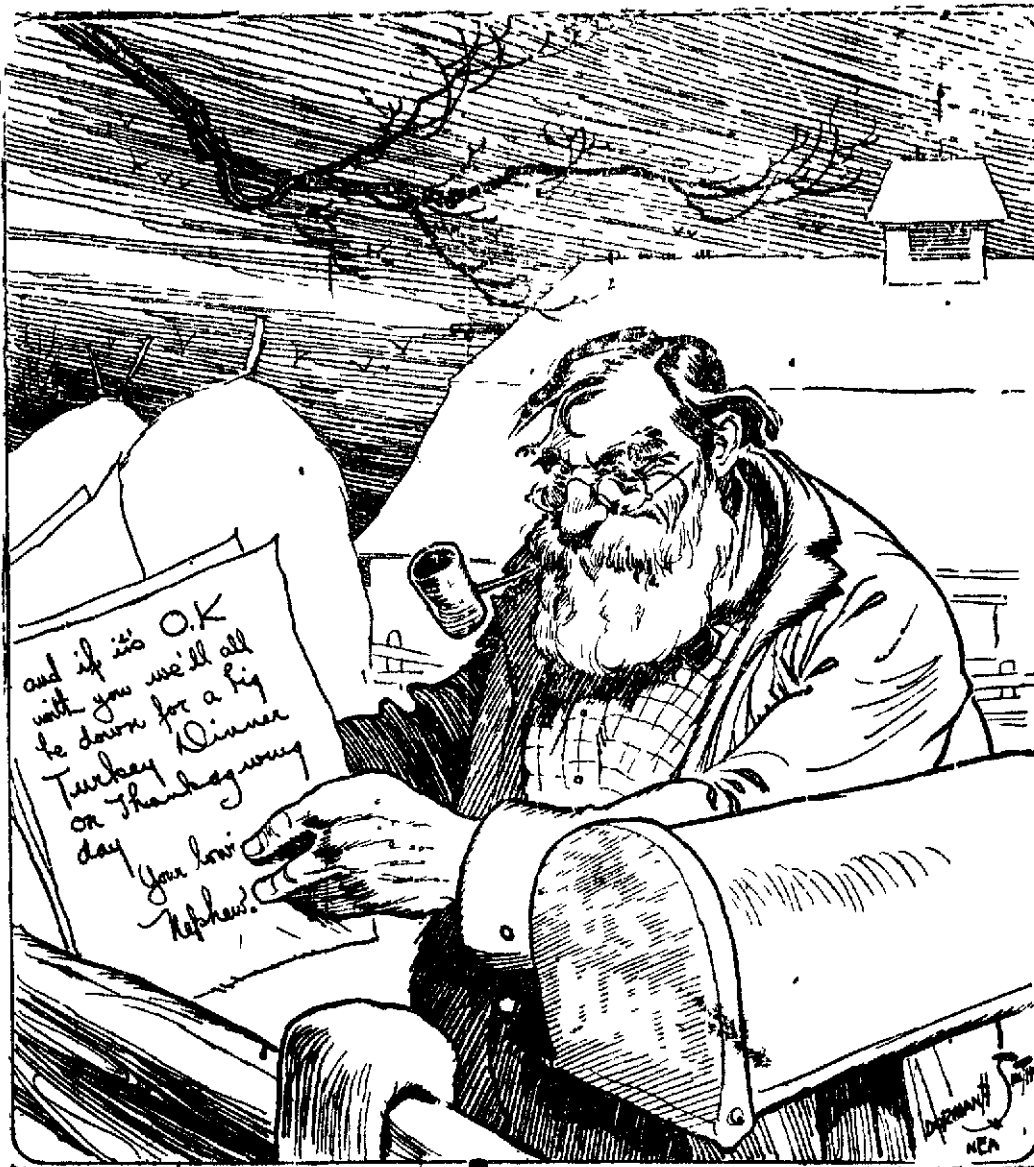

"How I Did It"

"I AM a Railroad man. Pretty far up in the Railroad World, but pretty low down eleven years ago when I began my first Bank Account. Wanted my home—started to save—and eight years later bought a beautiful little home without any mortgage on it."

Railroad men have a clear track through life when they set their signal with an account here.

Studebaker

Order Your Christmas Studebaker Now!

In order to have a Studebaker Light-Six Sedan at the door when the family comes downstairs Christmas morning, you should place your order now.

The Sedan is the ideal gift because it will provide happiness for all the family—all the year—and the years to come.

The sturdy body of the Light-Six Sedan, like the chassis, is built in Studebaker plants. It is constructed to give long, satisfactory service. Only the finest materials are used. Craftsmanship is unexcelled.

It is cradled on long, strong, semi-elliptic springs. The nine-inch seat cushions, upholstered in mohair velvet plush, are restful. The heater, cowl ventilator and the wide windows, among many other features,

add to its year-round comfort and utility.

The reliability of the Studebaker Light-Six Sedan has been proved in the hands of thousands of enthusiastic owners.

It is strictly a quality car. Its low price of \$1550 is possible only because of complete manufacture in one of the most modern and complete automobile plants in the world. This means the elimination of middlemen's profits, and the savings are passed on to you.

And back of the beauty and dependability of the Light-Six and its completeness, its advanced design and precise workmanship, is the Studebaker name, which after 70 years enjoys public confidence and respect more than ever.

Heater, Eight-day clock, Theft proof transmission lock, Cowl ventilator, Side coach lamps, Run vicer and windshield wiper, Inside locks on three doors and outside lock on right hand front door, Silk roller-curtains. Four doors that swing wide open. "Dome light" Mohair velvet plush upholstery.

**CLARION BOY KILLED**

SELF BY ACCIDENT

Clarion, Nov. 22.—Edward Nobit, a 16-year-old lad of Clarion, met instant death yesterday when he leaned on the muzzle of his gun which was accidentally discharged and blew away a portion of the left side of his body, the entire load taking effect on the heart. He was out hunting rabbits with a companion and they had come to a stand where they expected the dogs to round up a rabbit, and when Nobit placed the butt of the gun on the ground he leaned on the end of the barrel and the jar probably discharged the load.

Try Our Progress Job Department

**Work Halts On the New
Road Between Grampian
And Luthersburg Today**

Advices from Grampian last evening stated that the Pottsville Construction company, which has the contract for the improved road between Grampian and Reams watering trough, had tied up operations for the season. The pouring of concrete stopped at a point near the Walker farm, about 1-2 mile from the point to which the road is laid from Grampian up past the D. D. Miller farm.

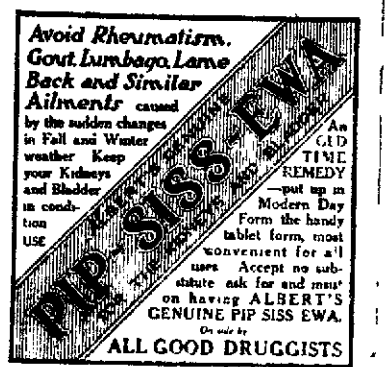

It is figured out that when all of the concrete is opened for traffic that it will leave about four miles of dirt road between Grampian and DuBois. It is expected that the concrete at this end of the road, beginning at the wide sweeping curve near Fagley's will be opened shortly, making possible a detour via the Bilger road into Grampian.

**BLOOMSBURG JAIL
HAS ONLY TWO MEN
SOJOURNING THERE**

Bloomsburg, Pa., Nov. 23. (U. P.)—The Columbia county jail is not a very popular place, as there are now only two prisoners "vacationing" there. This is the smallest number since Howard Gunther has been there.

Twice during the term of ex-sheriff Hilday there was but one prisoner in the jail.

Fish Whose Flesh is Poison
No known land animal has naturally poisonous flesh. There are, however, several fish whose flesh is deadly.

**A. E. F. Glad To Get
Home From Germany**

Berlin (By Mail to United Press).—The American forces in Germany are glad to go home.

Until recently the few remaining members of the American Army of Occupation at Coblenz were satisfied to remain. There reasons were numerous. They are regular army men and as such were satisfied to remain at such posts as the government ordered.

Now that many of their enlistments are near expiration, the soldiers are beginning to think of Christmas with the folks. Prices are climbing. Only a few hundred American soldiers remain. Coblenz isn't the American center it was when thousands of khaki-clad men were seen on every street, in every hotel and cafe.

"Them Days are Gone Forever," according to the American, the A. E. F. paper.

"Whenever soldiers gather," the American declares, "a great deal of the conversation is taken up with specu-

lation as to the date of our departure. The cries against leaving are not as positive as heretofore. An excellent example of the change of sentiment was the attitude of the crowd at the departure of a casual detachment the other day.

"Upon former occasions when troops were departing they were invariably sympathized with by those remaining and appeared to accept sympathy as appropriate. At the last train however, the situation might be said to have been reversed. Many of those on the platform expressed a wish to be on the train and no signs of downheartedness or regret were exhibited by those leaving. They were, as a whole, really glad to be going. The reduction of forces has changed the atmosphere of the entire community."

Squirrels Supply Brushes
The camel hair brushes so popular with artists for they are made from squirrel's hair.

FROM WHICH MANY
FALSE CALLS COME**

Seranton, Pa., Nov. 23 (U. P.)—Superintendent of Fires Rosar has ordered Box 235 moved from its location on the northwest corner of Washington avenue and Spruce street, because of the frequency with which false alarms have been coming in from that box.

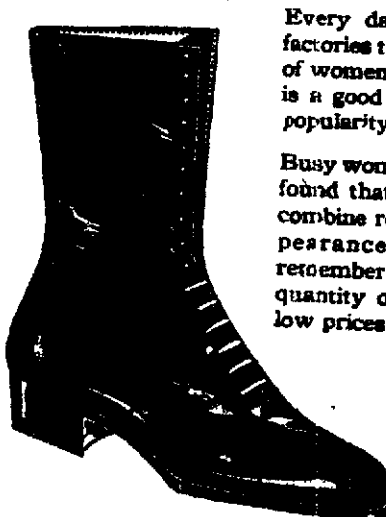

There have been more false alarms from Box 235 than from any two others in the city, Rosar said. The box will be under the watchful eye of a traffic officer in its new location.

**Real Flexibility
in a Woman's E-J Comfort Shoe**

Every day the Endicott-Johnson factories turn out thousands of pairs of women's shoes alone. And there is a good reason for this immense popularity.

Busy women the country over have found that no other shoes so well combine real comfort with neat appearance and long wear. And remember this—the tremendous quantity of E-J production means low prices to you.

More Wear
per Pair.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

born, to Mr. and Mrs. Francis Malton at their home on Grampian road, on Sunday night, a young son. As this is the first born the mother and father are unusually delighted.

An infant child of Mr. and Mrs. Paul Dale died after a few hours illness yesterday forenoon.

John Kelly, went to Rockton yesterday to attend the funeral of Scott Kelly, a brother-in-law, who died in the Maple Hospital, DuBois, a few days ago. He was aged 65 years and survived by a widow and several children. Interment was made in the cemetery. He was well known and respected in the section when he made his home.

Curwensville is due for another one of those cut price stores. The old Bedford store building on the corner of State and Walnut streets has been leased and being prepared to receive a stock of general groceries. A butcher shop will also be added and sold at a lower price than the folks of town have been paying for meat of all kinds. This will make the sixth cut rate store in Curwensville and the end is not yet.

Port Piles, a butcher of large experience, claims the honor of slaying the biggest porker of the season. Last Tuesday he went out to the farm of El. Bloom and downed one that tipped the scales at 640 pounds, dressed he also made 350 pounds of sausage from the same animal.

Last night the Red Men celebrated in their new rooms on third floor of Fullerton block. An unusually large number of Indians were present to inspect new medicine lodge and wigwam. After the regular lodge formula had been transacted the time for pow-wow came, and for an hour much talk was indulged in by braves, both old and young. Then came the feast and as there was plenty of provender no one went away hungry. The new rooms have been elaborately painted and furnished and the tribe can now boast of having the finest and most up to date lodge quarters to be found anywhere in the county, barring none. This society has now about \$7000 invested. A large social room is a feature that will prove a great advantage to the members of this order.

Members of Chamber of Commerce will assemble in their room, Fullerton block, tonight. Business of importance will be presented and each member is earnestly requested to be present.

William Holden, of Clearfield, and by profession an undertaker, came from the county seat last evening to assist in the dedication of the new Red Men's rooms and get away with his share of the "eats." "Billy" is a jolly good fellow and is always a welcome visitor to our village, in which he was born and reared.

The program for the celebration of the 50th anniversary of the institution of Bethesda lodge 821, I. O. O. F. is about completed. The exercises will be held in the Opera House instead of the regular lodge room. A banquet will follow at the ending of the numbers on the program.

FOOD SALE

Everything for Thanksgiving dinner held at the Jitney Station, Curwensville, on Tuesday afternoon from 2 until 4 o'clock. Leave orders on Saturday. Benefit Presbyterian Missionary Society. 11/23/12

A WORTH WHILE PROJECT

The American Legion Post of Grampian, the Ladies Auxiliary of that post and the Grampian Band, have joined hands in arranging a benefit for the family of a blind man resident of that community. This man was stricken blind about four years ago. Since that time he has made a brave struggle to make ends meet and with the assistance of a small son has been doing admirably by house to house canvassing. For four months, however, he has been unable to work. Go to Grampian Saturday night and participate in the cake walk and general good time that is going to be had while the money is rolled in for this deserving man.

PUBLIC INVITED TO OPENING OF HANDSOME SCHOOL BUILDING AT HYDE CITY

The school directors of Lawrence township, headed by Peter Gearhart, President, have erected a handsome four room, modern heated and lighted, school house at Hyde City to house the rapidly growing population in that vicinity. The building will be completed today and the school board has decided to hold open house tomorrow evening to afford the citizens an opportunity of meeting today in mutual admiration of the building where their children are to spend so much time. Tomorrow evening at 7:30 a program will be carried out, headed by County Superintendent Trostle and Professor Zerfoss as speakers. There will also be other speakers and a thorough good time is anticipated. Every patron of the school should be there. Visitors from other districts will be welcome. The school will be open for regular sessions next Monday.

Today's Wise Word.

DUBOIS HAS

(Continued From Page One.)

tel of backs have the veteran line-man Stratton to depend on as snapper-back. Stratton weighs 184 pounds and has 3 years varsity ball to his credit, so it is apparent Capt. Withrow, the Clearfield center, has his work cut out for him.

Heavy Line From Tip To Tip.
Peifer and Faulkner, ends, average 160 pounds, which is the heaviest wing combination to face C. H. S. except Lock Haven's flank artists. Peifer does the century in 10.2. Big "Bull" Beightol, 204-pound guard, and Karl Keys, tackle, are other star performers on Coach Treadwell's outfit. Keys, according to the DuBois papers, is the surest tackler ever turned out at the third class city institution. With such a heavy line rush, the DuBois eleven should have a powerful punch on mass formations.

Clearfield Stars on Injured List.
Hody Johnson, star all around back, may not be able to play Saturday due to a twisted knee. Last night in scrimmage Hody received the injury when tackled by a scrub player from the side. Johnson's knee was just getting in good shape again, as it was "knocked out" in the Mt. Union game. Giant Ganoe, powerful Red and Black guard, has not been able to don grid togs since Monday, as he is suffering with a double infection on his foot. The rest of the players are in fair shape, with no serious casualties.

New Plays and Formations.
Coaches Reed and Flegel worked the entire squad as long as the fading day permitted on several new plays and formations especially for the DuBois game. Considerable attention was also given to the local's defensive play, which has been the cause of most of Clearfield's defeats. In every game C. H. S. has been able to gain first down after first down, but were unable to stop their opponents at the crucial stages of the game. Alert defensive halfbacks must be developed to smash DuBois' passing game, and the Red and Black forwards must tighten up and prevent a continuation of "punt blocking." In the Lock Haven and Williamsport games, Clearfield punts that were blocked were responsible for two enemy touchdowns, and victory, at Billtown.

BIG GAINS IN OUR EXPORTS TO SOUTH AMERICA

By O. P. AUSTIN - STATISTICIAN

THE NATIONAL CITY BANK OF NEW YORK

(FROM THE WEEKLY TRADE RECORD ISSUED BY THE NATIONAL CITY BANK)

Exports from the United States to our neighbors in South America show remarkable gains in the new fiscal year which began with the month of July. This is the more remarkable because of the fact that the fiscal year ending with June had shown a reduction of more than 60% in our exports to that continent. Every month since the opening of the new fiscal year, according to the Trade Record of The National City Bank of New York, has shown big increases in the value of exports to South America despite the fact that most of the merchandise leaving the country is going at lower prices than a year ago. In fact, the value of the exports sent from the United States to South America in the 3 months of July, August and September, 1922 totals 36% more than in that same period of last year, while the total value of the exports to North America in the same period showed a decline of 11% to Europe a reduction of 19% and to Asia and Oceania no change when compared with the same months of last year. The South American market therefore is the one in which our exports show big gains in the new fiscal year 1922-3.

This increase in our sales to our South American neighbors is especially interesting in view of the

fact that manufactures form the bulk of the materials which they buy from us. And it is in the exportation of manufactures that we are most concerned in considering the future of our export trade. All the world comes clamoring to our doors for our foodstuffs and raw materials especially bread and meats and cotton, of which our surplus is constantly growing less with our increase of population, but it is in manufactures that we must make our fight in world markets. On the other hand, we clamor at the doors of other countries producing tropical foods and manufacturing materials such as coffee, cacao, india rubber, wool, nitrates and other of the natural products of South America, and it happens that our South American neighbors have not yet become manufacturers in any large degree the interchange between the two continents is a perfectly natural one for we of the United States are now the largest manufacturing country in the world.

So it is interesting to see that the quantity of cotton cloths sent to South America in August, the latest month for which details are available, was 50% more than in the same month of last year; newspapers and book paper more than doubled that of the same month last year; galvanized iron sheets

over 4,000,000 pounds against one-half million in August, 1921; tin plate three times as much in value as a year ago; wire over 13,000,000 pounds against less than 1,000,000 in August, 1921; and of automobiles sent to South America the value in August, 1922, was ten times as much as in August, 1921. And these are merely examples of the increasing regularity of American manufactures with our South American neighbors.

We are reciprocating to our neighbors by taking increased quantities of their merchandise, for in July of the current year our imports from that continent showed an increase of \$10,000,000 when compared with the same month of the preceding year. August a gain of \$10,000,000 and September a gain of \$10,000,000 over the same month of 1921; these increases in our purchases of their products including coffee, cacao, wool, hides and skins, india rubber, nitrates, and many other articles of tropical and sub-tropical growth for which we are dependent upon other countries. And the increase in the exchange of the products of our factories for those of the fields and forests of our nearest neighbor, South America, is an encouraging feature of our after-war trade.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

The Store That Puts The "Y" In Home And Makes It "Homey"

We have the furniture in oak, walnut, mahogany, and other finishes for every room in your home. We can supply your kitchen with linoleum, either two or four yards wide, or linoleum rugs, kitchen cabinets that are a joy to the women, and that enameled range that never needs the weekly "shine." To see them is to make you wonder how the women of yesterday ever lived without them.

The Dining Room with a rug that rests the eye, an American Walnut Dining Suite,—buffet, china cabinet, round or square table, and chairs to match—who could resist an invitation to dine amid such surroundings with a genial host if there be good things to eat. Our store can supply you with your needs in this line at prices so low you cannot afford to be without them.

For the bedroom we can show you the iron beds in White, and Mahogany Enamel, in Brass, in Walnut, Oak, Mahogany, and other finishes with Dressing Tables, Dressers, Chiffoniers and Chairs to match the finish. We handle the Silk Floss Mattress and Hercules Springs. Equip all your bedrooms with these modern comforts and be assured that all in your home are resting well when sleep-time comes.

Then, look to that Living Room where you entertain your friends. Let us supply you with the latest Over-stuffed Suite, the Davenport Table, Electric Floor Lamp and Luxurious Chairs and Rockers, and the Rugs for this room. You will find it is easy to keep those boys and girls at HOME if you add the "Y" and make it HOMEY. If we don't have what you want we'll get it for you.

Mother's Assistance Is Given Near 2 Thousand Families During the Year

Harrisburg, Pa., Nov. 23. (U. P.)—The Mothers' Assistance Fund in Pennsylvania is now helping 2,450 families, including the care of 9,015 children, Miss Mary Bogue, Supervisor of the Mothers' Pension Bureau, announced today.

At the same time there are now on the waiting list 4,500 families with 17,000 children, for whom there are not sufficient funds. The State appropriated \$1,000,000 for the two year appropriation period to which the counties in which aid is extended add another million.

Fifty-four of the 67 counties of the State have organized Mothers' Assistance Fund work, Miss Bogue said. Many inter-county conferences of Fund trustees have been held. The next ones will convene in Erie, Dec. 6, and in Pittsburgh, Dec. 13.

In outlining the work of the bureau, Miss Bogue stressed the fact that more than mere financial aid was extended to needy families. Administrators of the fund endeavor not only to build up the proper home life, but to aid in the health, educational, and disciplinary development of the children by monthly visits and constant attention.

SCOUT NEWS

Miss Lorain Allen of Troop 9, entertained her troop and their guests at a theatre party Saturday evening, supper being served afterwards at the home of the captain, Mrs. Herberg.

Troop 8 had a campy sale Saturday noon with the assistance of their captain, Mrs. Leslie Wise. Over \$8.00 was realized toward the purchase of uniforms.

Practically all the troops will have the Tenderfoot Test by the end of the week, all will be able to enroll at headquarters in New York as full fledged scouts. All meetings are now being held in the new home of the scouts, though like many new homes, it is rather bare as yet. Community

Service is providing the home itself with light, heat, phone, a victrola and the bare necessities in the furniture line. The scouts are ransacking attics for spare or cast-off family treasures.

"THE HAPPY MAN"

First rehearsal of one of the plays to be given by members of the dramatic institution was held in the High School Tuesday night. Work on the children's play, "The Magic Path" to be given by the West Side school, was also begun on Tuesday.

The general institute committee met last night to discuss and lay plans for a permanent community dramatic organization. It is hoped that every one with an interest in

PAZO OINTMENT instantly relieves ITCHING PILES and you can get restful sleep after the first application. 50c.

Organ Perfected Which Will Throw Light Rays In Harmony With Music

Pittsburg, Pa., Nov. 23. (U. P.)—The light and color organ has at last become a fact, Mrs. Mary Hallack Greenewalt, inventor, has announced.

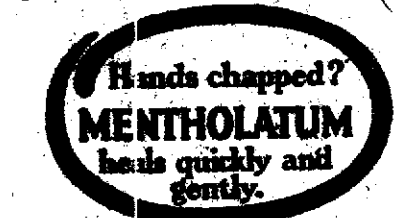

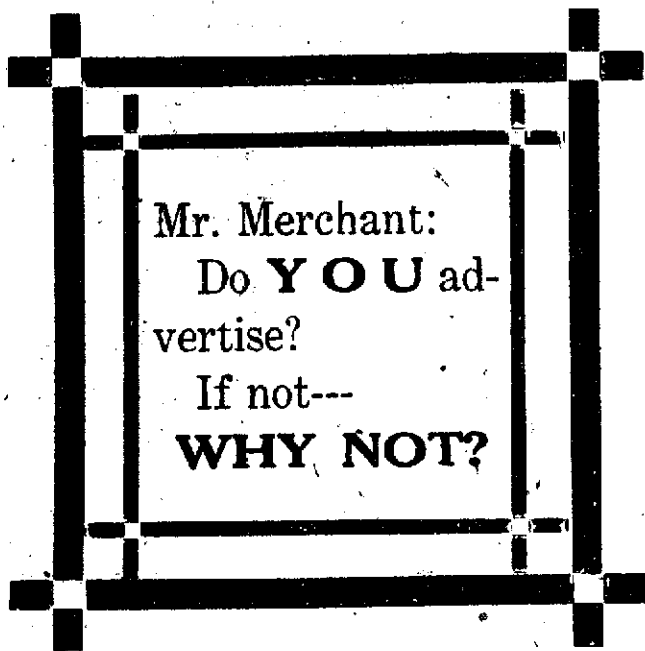

After sixteen years of labor in perfecting an instrument which will throw out light in myriad shades of color in harmony with the music being played, a color organ is under construction here for Pierre B. Dupont, multi-millionaire of Wilmington, Delaware.

"The art of color and music combined," says Mrs. Greenewalt, "will adapt itself to concerts, theatres,

moving pictures and every place where there is music. In a church, for example, think of the 'purple light of religion' on the marble altar of the cathedral—that color accompanying music of the same spirit."

Mrs. Greenewalt is said to have the support of Leopold Stokowski and other musicians and orchestra leaders.

SULPHUR SOOTHES UGLY, ITCHING SKIN

The First Application Makes
Skin Cool and Comfortable

If you are suffering from eczema or some other torturing, embarrassing skin trouble you may quickly be rid of it by using Mentho-Sulphur, declares a noted skin specialist.

This sulphur preparation, because of its germ destroying properties, seldom fails to quickly subdue itching, even of the most obstinate. The first application makes the skin cool and comfortable. Rash and blotches are healed right up. Mentho-Sulphur is applied like any pleasant cold cream and is perfectly harmless. You can obtain a small jar from any good druggist.
